

# Online Workshop

## Modelling shallow bedrock energy utilisation

presented by the Geological Survey of Finland

23 -25 March 2021

### Main topics of the course

- ✚ Shallow geothermal energy; theory and principles - Lasse Ahonen
  - ✚ Field measurements - Annu Martinkauppi
- ✚ Planning and optimisation of shallow geothermal system - Nina Leppäharju

### Registration

Free of charge  
Closes on **18 March 2021**

**Register [here](#).**

In case of attendance at the full course, a certificate will be provided for the completion of the workshop.

The workshop is a part of the Horizon 2020 [ENeRAG project](#).
